

ABC Company allows some customers to make purchases on credit. Others may use either of two credit cards. The VS card deducts a 3% service charge for sales using its credit card and immediately credits the company's account for the net amount. When customers use the AM credit card, the company accumulates the receipts for several days and then sends them to AM Credit Card Company for payment. AM deducts 4% service charge and sends a cheque to the company for the net amount.

ABC Company completed the following transactions:

- Aug 2 Sold merchandise on credit to Anita for \$645.00 (Terms are 2/15, N/30)
- Aug 3 Sold merchandise for \$3,892.00 to customers who used their VS card.
- Aug 3 Sold merchandise for \$2,106.00 to customers who used their AM credit card.
- Aug 5 Sold merchandise for \$5,374.00 to customers who used their AM credit card.
- Aug 7 Wrote off the \$1,639 balance in Smith's account (Using the Allowance method)
- Aug 8 The AM credit card receipts accumulated since August 3 were submitted to the credit card company for payment.
- Aug 17 Received full payment from Anita
- Aug 19 Received full payment from AM Credit Card Company.

**Required:**

1. Prepare General Journal entries to record these transactions.

**GENERAL JOURNAL**
